

ESTONIA

International Cooperation on Autonomous Ships

October 30th 2017

- There are companies interested to develop MASS (Maritime Autonomous Surface Ships) projects (IT, cyber security, shipbuilding, operators, owners, machine building, design, ...)
- Government and Maritime Authority support the MASS concept
- MASS work group established at Maritime Administration
- Estonia is willing to offer Flag for MASS (maritime law revision ongoing)
- Estonian MA is in discussions with Finnish MA
- Estonia has co-signed the letters to IMO with other progressive countries
- Universities and Maritime Administration participate in international projects
- Estonian Maritime Academy has willingness to educate MASS operators
- Ongoing developments on mooring solutions for MASS
